"I am the way, the truth, and the life. No one comes to the Father except through Me."

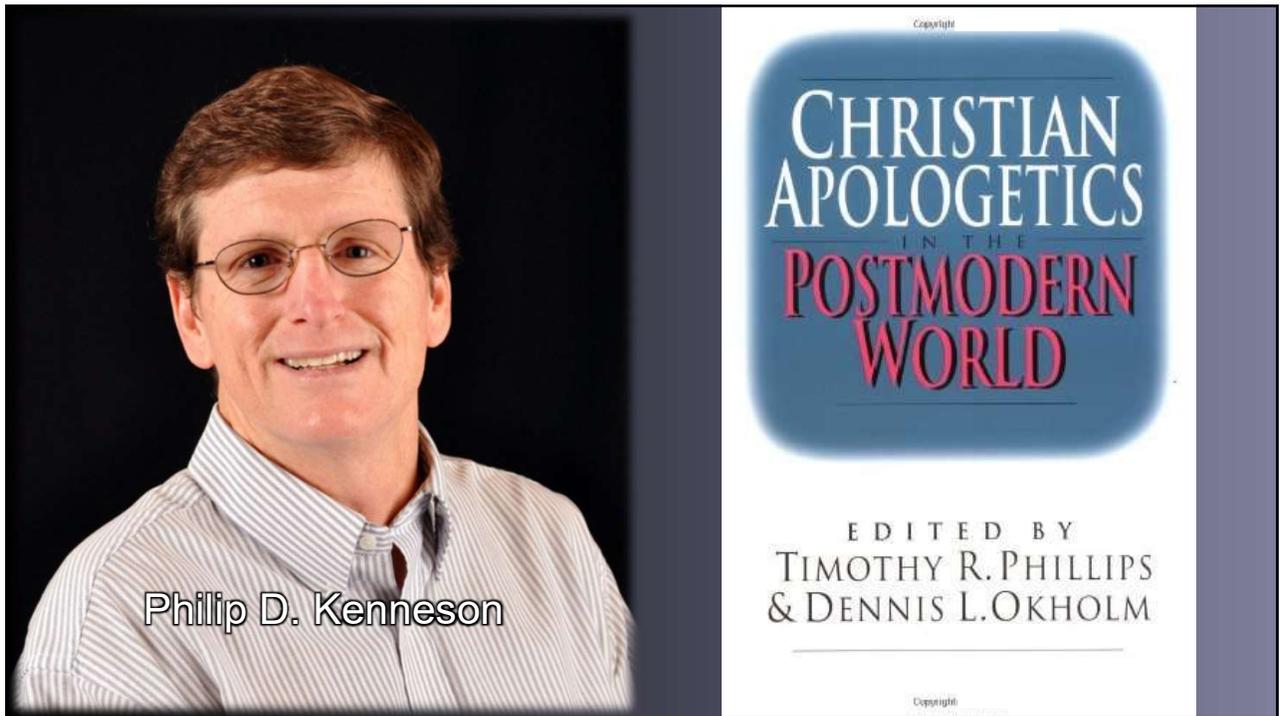

"And you shall know the truth,
and the truth shall make you free"

Jesus of Nazareth, *John 8:32*

The way to solve the problem you see in life is to live in a way
that will make what is problematic disappear.
*Ludwig Wittgenstein*¹

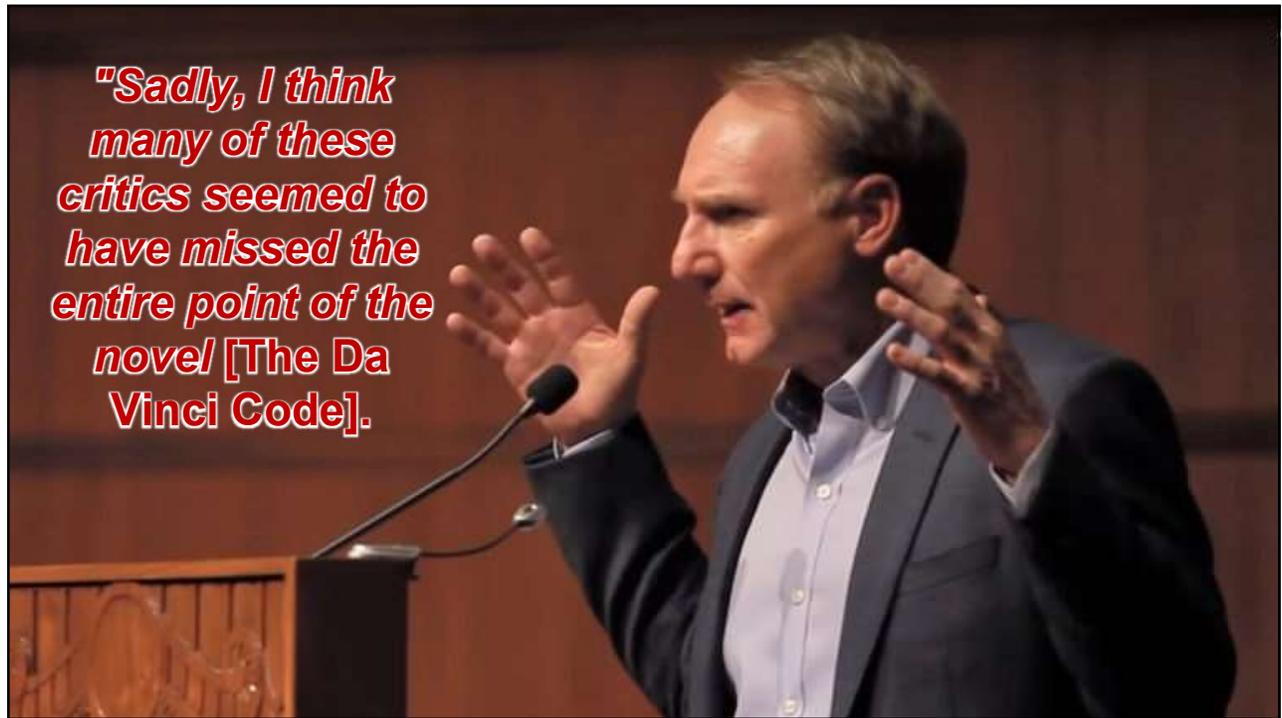

"The world is a big place and now more than ever there is enormous danger in believing we are infallible, that our version of the truth is absolute, that every one who does not think like we do is wrong, and therefore, an enemy."

ASPECTS & ASSUMPTIONS OF WHITENESS & WHITE CULTURE IN THE UNITED STATES

White dominant culture, or **whiteness**, refers to the ways white people and their traditions, attitudes and ways of life have been normalized over time and are now considered standard practices in the United States. And since white people still hold most of the institutional power in America, we have all internalized some aspects of white culture—including people of color.

Rugged Individualism

- The individual is the primary unit
- Self-reliance
- Independence & autonomy highly valued + rewarded
- Individuals assumed to be in control of their environment, "You get what you deserve"

Family Structure

- The nuclear family: father, mother, 2.3 children is the ideal social unit
- Husband is breadwinner and head of household
- Wife is homemaker and subordinate to the husband
- Children should have own rooms, be independent

Emphasis on Scientific Method

- Objective, rational linear thinking
- Cause and effect relationships
- Quantitative emphasis

History

- Based on Northern European immigrants' experience in the United States
- Heavy focus on the British Empire
- The primacy of Western (Greek, Roman) and Judeo-Christian tradition

Protestant Work Ethic

- Hard work is the key to success
- Work before play
- "If you didn't meet your goals, you didn't work hard enough"

Religion

- Christianity is the norm
- Anything other than Judeo-Christian tradition is foreign
- No tolerance for deviation from single god concept

Status, Power & Authority

- Wealth = worth
- Your job is who you are
- Respect authority
- Heavy value on ownership of goods, space, property

Future Orientation

- Plan for future
- Delayed gratification
- Progress is always best
- "Tomorrow will be better"

Time

- Follow rigid time schedules
- Time viewed as a commodity

Aesthetics

- Based on European culture
- Steak and potatoes; "bland is best"
- Woman's beauty based on blonde, thin – "Barbie"
- Man's attractiveness based on economic status, power, intellect

Holidays

- Based on Christian religions
- Based on white history & male leaders

Justice

- Based on English common law
- Protect property & entitlements
- Intent counts

Competition

- Be #1
- Win at all costs
- Winner/loser dichotomy
- Action Orientation
- Master and control nature
- Must always "do something" about a situation
- Aggressiveness and Extroversion
- Decision-Making
- Majority rules (when Whites have power)

∞ Objective vs. Subjective ∞

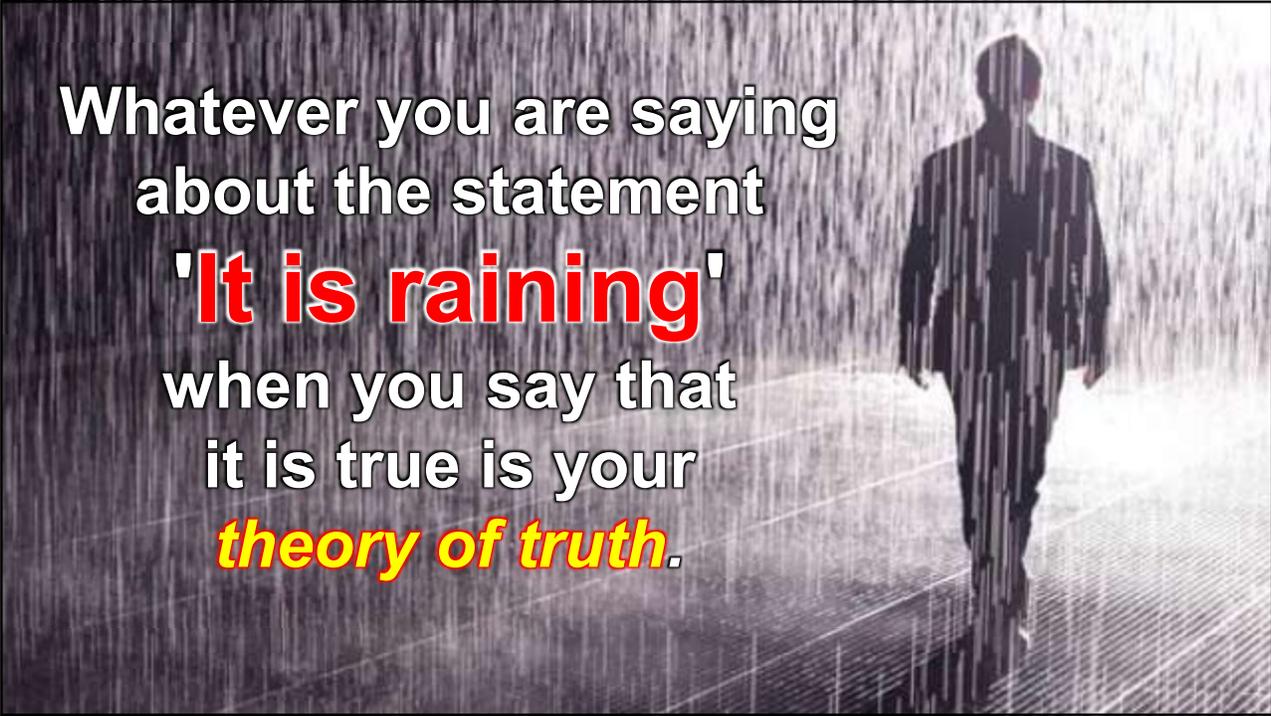

*independent of vs. dependent upon
one's individual opinion*

- If the temperature in a location is 75°, then it is 75° for everyone in that location.
- The temperature would not be a matter of mere opinion.
- However, the temperature might feel comfortable for one person and uncomfortable for someone else.
- The temperature is objective whereas the feeling of the temperature is subjective.

***Distinguishing
Theories of Truth
and
Tests for Truth***

A person in a dark suit is walking away from the camera on a wet, reflective surface during a heavy rain. The rain is depicted as numerous vertical streaks, creating a sense of motion and atmosphere. The person's reflection is visible on the wet ground.

Whatever you are saying
about the statement
'It is raining'
when you say that
it is true is your
theory of truth.

Correspondence

Truth is correspondence to reality.

- This says that a statement is true in as much as it corresponds to reality.
- Thus, the statement 'It is raining.'

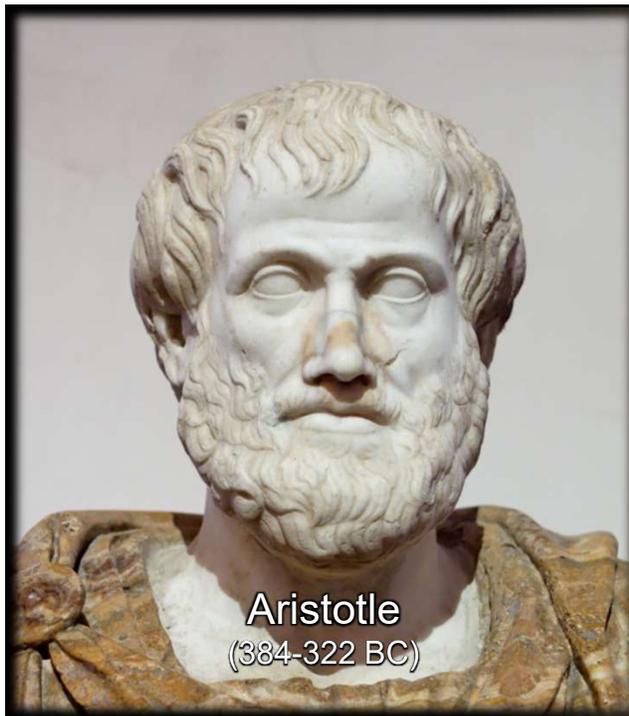

'It is raining'

would be a true statement if it is in fact raining in reality.

'It is raining'

would be a false statement if it is in fact not raining in reality.

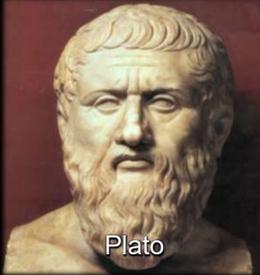

Aristotle
(384-322 BC)

"To say of what is, that it is not, or of what is not, that it is, is false, while to say of what is, that it is and of what is not, that it is not, is true."

Metaphysics, IV, 7, 1011^b26-29 Translation by W. D. Ross in Richard McKeon, *The Basic Works of Aristotle* (New York: Random House, 1941). τὸ μὲν γὰρ λέγειν τὸ ὄν μὴ εἶναι ἢ τὸ μὴ ὄν εἶναι ψεῦδος, τὸ δὲ τὸ ὄν εἶναι καὶ τὸ μὴ ὄν μὴ εἶναι ἀληθές.

SOCRATES: *But how about truth, then? You would acknowledge that there is in words a true and a false?*

HERMOGENES: *Certainly.*

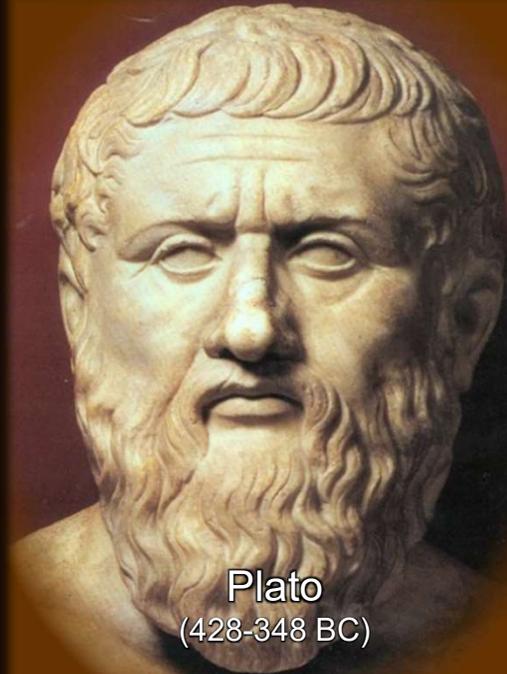

SOCRATES: *And there are true and false propositions?*

SOCRATES: *And a true proposition says that which is, and a false proposition says that which is not?*

HERMOGENES: *To be sure.*

STRANGER: Whereas the false statement states about you things different from the things that are.

"To avoid a confusion that runs through philosophical controversies about truth it must be remembered that the correspondence theory of truth is not itself a test of truth. It merely states the definition of truth—what it is. This underlies all empirical and pragmatic tests of truth. ..."

Mortimer J. Adler
(1902-2001)

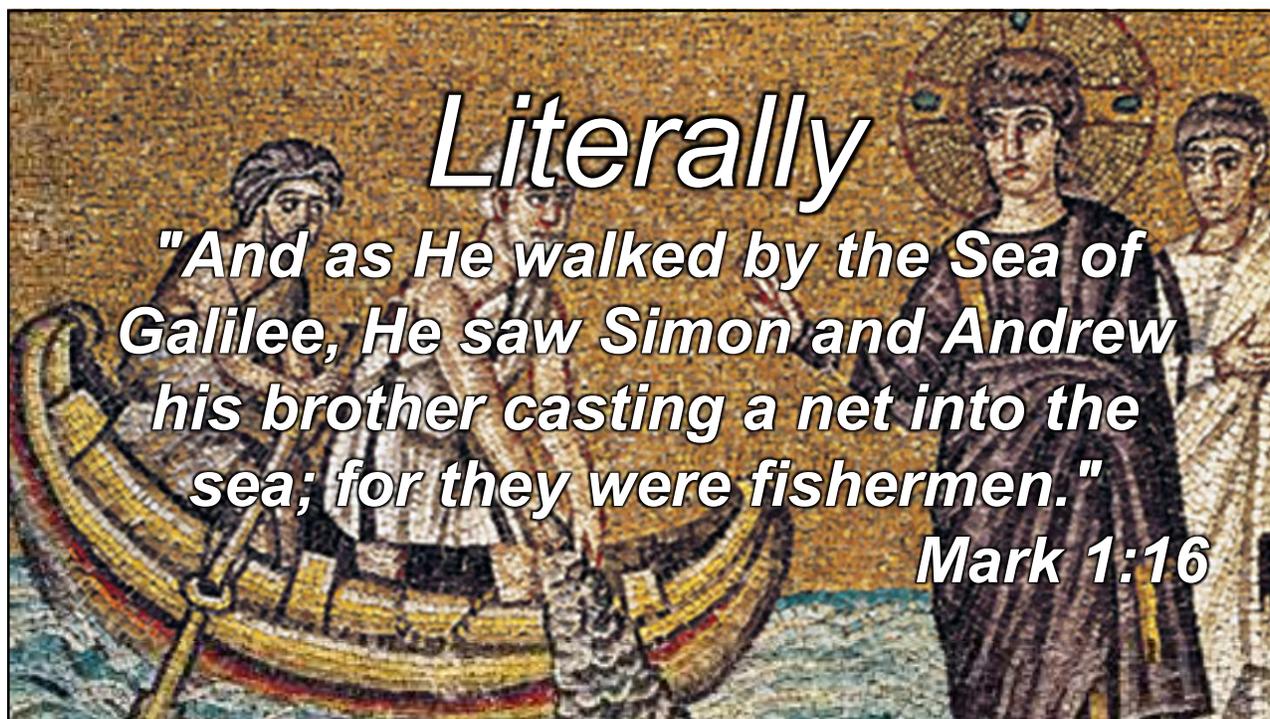

"The logical test of truth, such as coherence or the absence of intrinsic contradiction in a theory, do not presuppose the realist's definition of truth as agreement or conformity of our thinking with the way things, in fact, are. That is why idealists tend to define truth entirely in terms of coherence."

Metonymy

And when John had heard in prison about the works of Christ, he sent **two** of his disciples {3} and **said** to Him, "Are You the Coming One, do we look for another?" {4} Jesus answered and said to them, "Go and tell John the things which you hear and see:" Matthew 11:2-4

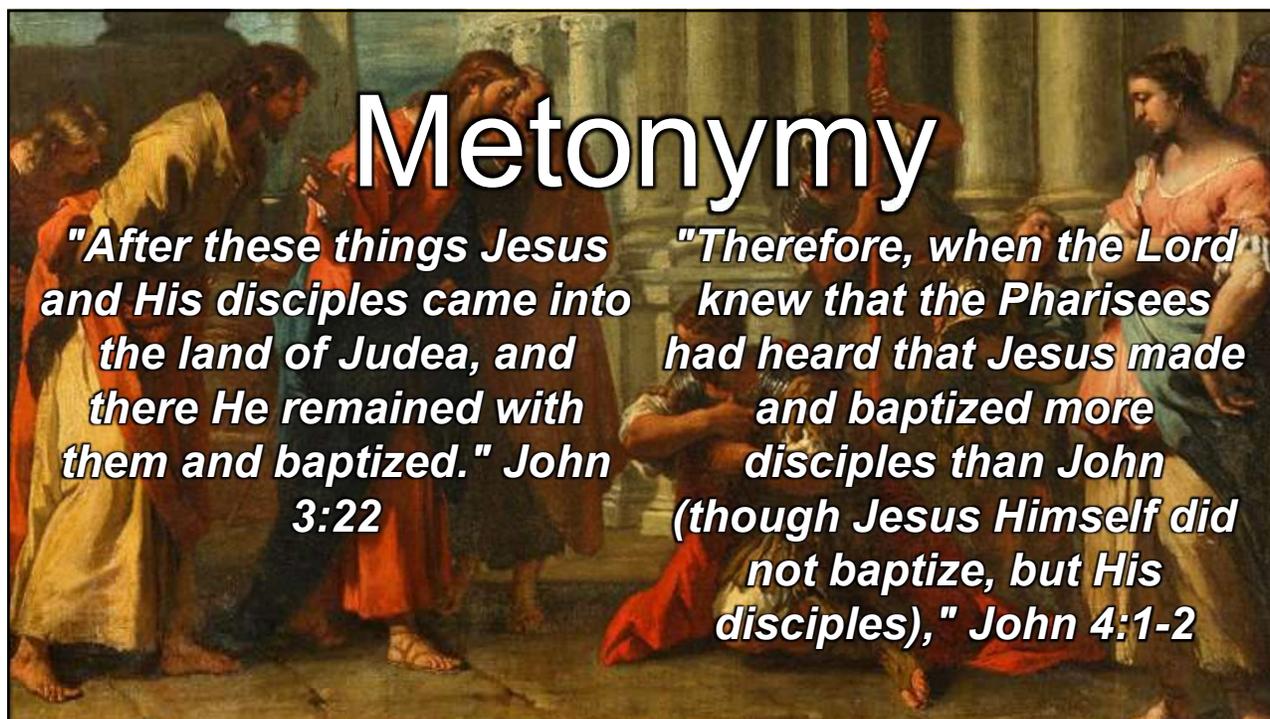

Notice that two went to speak to Jesus.

Yet the verb here is singular meaning that the two were speaking for Jesus as if it was Jesus Himself doing the talking.

Metonymy

"The centurion answered and said, 'Lord, **I am not worthy** that You should come under my roof. ...'"
Matt. 8:8

The map is first in the order of knowing.

SES is first in the order of being.

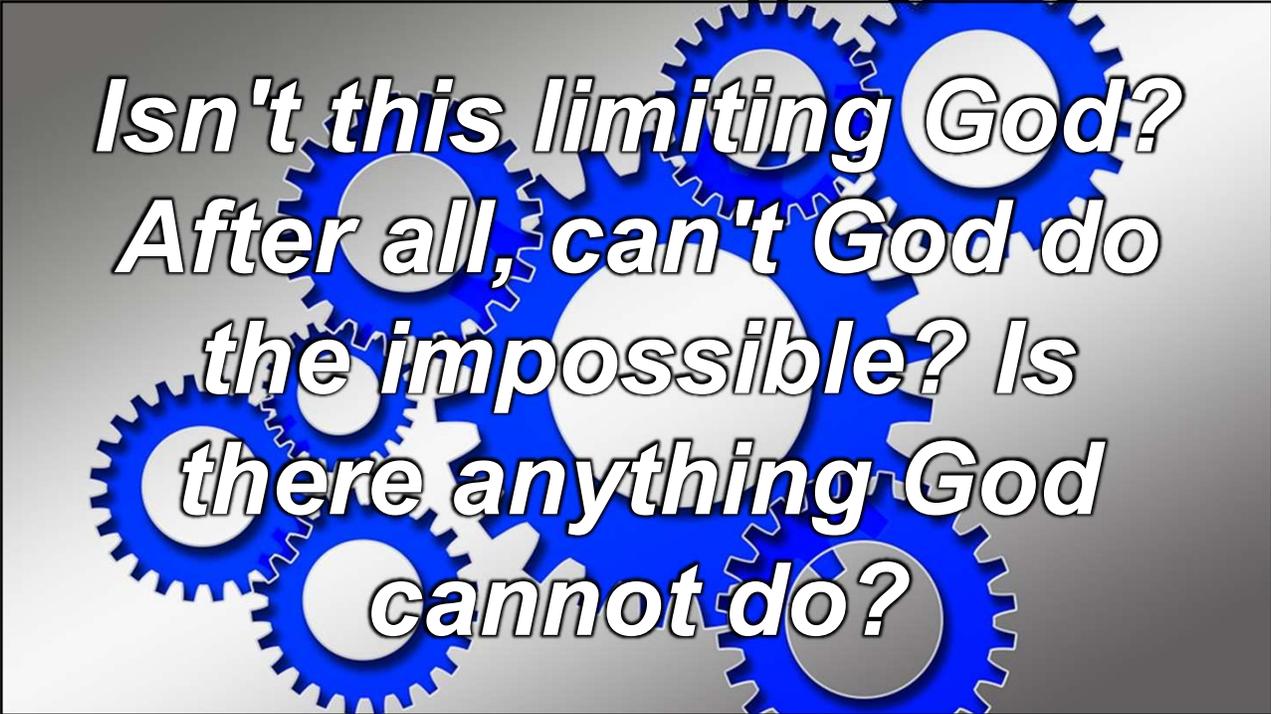

**Aren't we
putting *OUR*
logic before
God?**

- response: It is not "our" logic.
- Logic is an expression of the nature of God Himself.

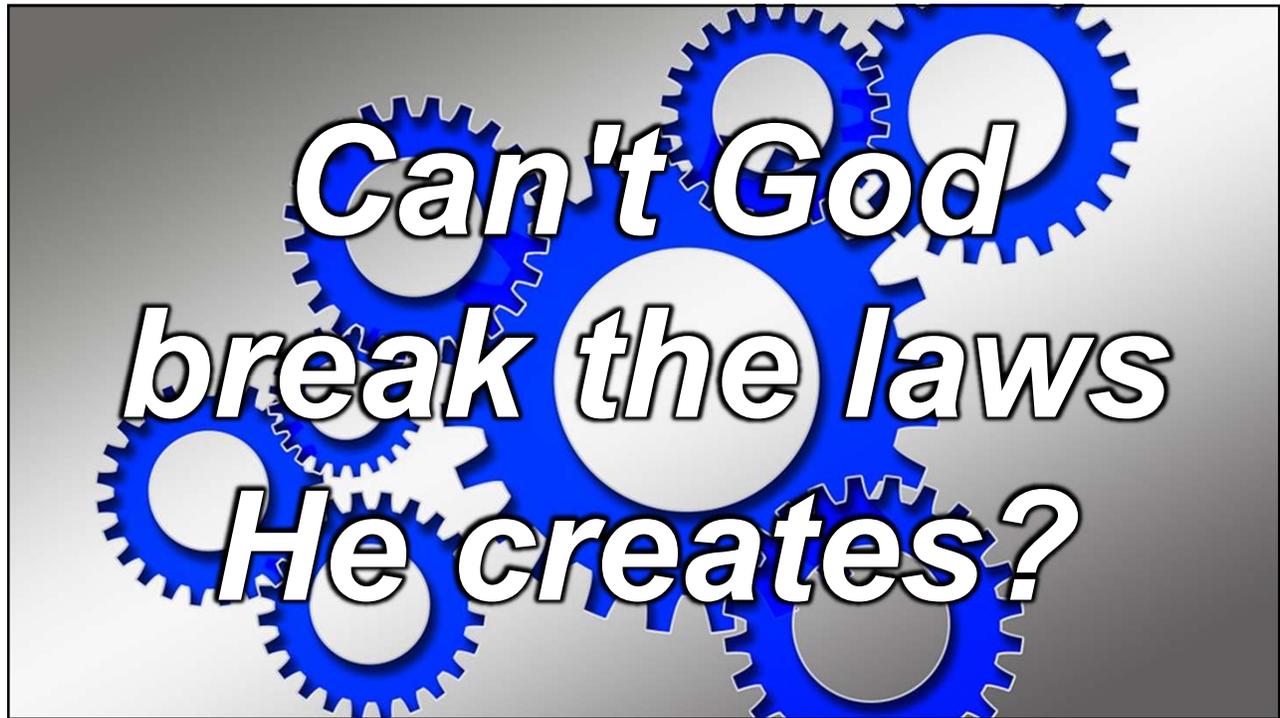

Isn't this a form of Rationalism?

- response: There is a difference between being rational and Rationalism.
- Rationalism is the view maintains that knowledge is primarily attainable by reason apart from the physical senses.
- However, the notions of self-evident truths or rationally inescapable truths do not constitute Rationalism. (e.g., Declaration of Independence)

***Isn't this limiting God?

- response: God cannot violate His own nature.
- Logic is an expression of the nature of being itself.
- God is infinite being.

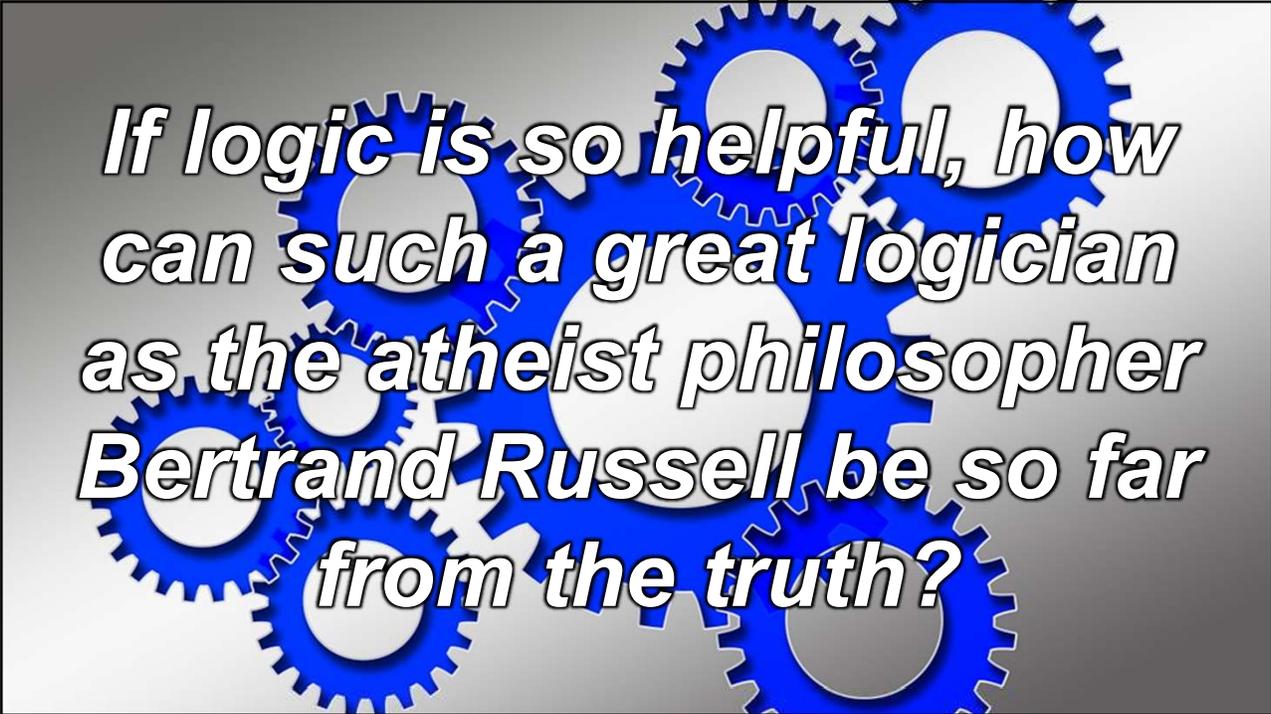

- response: Logic was not created by God. It is an expression of God. (like goodness)

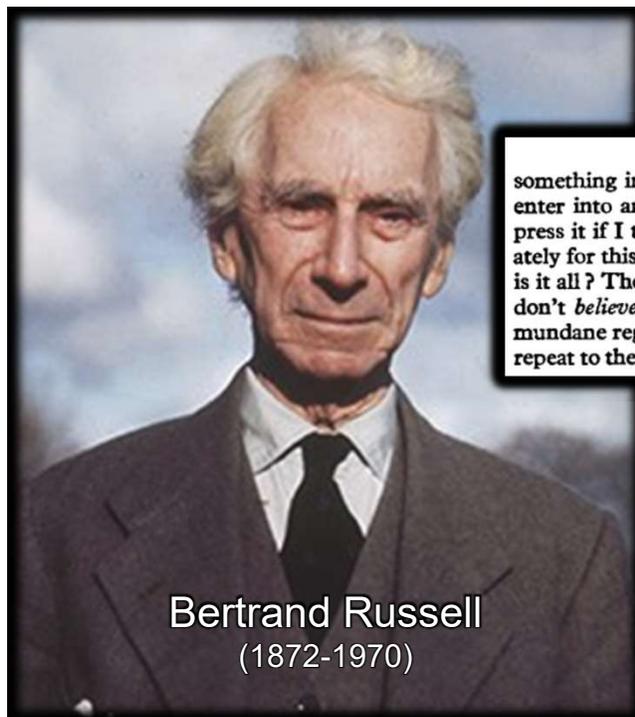

*Don't some

Even when one feels nearest to other people, something in one seems obstinately to belong to God and to refuse to enter into any earthly communion – at least that is how I should express it if I thought there was a God. It is odd isn't it? I care passionately for this world, and many things and people in it, and yet . . . what is it all? There *must* be something more important, one feels, though I don't *believe* there is. I am haunted – some ghost, from some extramundane region, seems always trying to tell me something that I am to repeat to the world, but I cannot understand the message.

The outcome is that one is a ghost, floating through the world without any real contact. Natural Theology arises from God's General Revelation.

General Revelation: God's revelation of His existence and certain attributes to mankind through His creation.

Special Revelation: God's revelation of Himself through His prophets and apostles and ultimate through His taking on human nature in the Incarnation in Jesus Christ.

HOMILETICS INTERVIEW: Robert E. Webber

What Younger Evangelicals Want—and Are Getting!

Robert E. Webber is the William R. and Geraldyn B. Myers Professor of Ministry at Northern Seminary in Lombard, Illinois, one of the only seminaries in the country that offers a Master's and a Doctorate in worship and which has intentional studies that integrate worship and spirituality into the program. He is also the President of the Institute For Worship Studies which offers a MWS (Masters of Worship Studies) and a DWS (Doctor of Worship Studies). He is also Professor of Theology Emeritus at Wheaton College, Wheaton, Illinois.

Dr. Webber has lectured on worship in nearly every denomination and fellowship, and has authored or edited more than 40 books on worship including the eight-volume work, *The Complete Library of Christian Worship*. His most recent books include: *Planning Blended Worship* (Abingdon, 1998), *Ancient-Future Faith* (Baker, 1999), and *Journey to Jesus* (Abingdon, 2001).

His latest book, *The Younger Evangelical* (Baker, 2002), is attracting broad attention and interest because of its incisive look at a new emerging leadership in the church, while at the same time pausing to look at the leadership models of the 20th-century church.

Dr. Webber was scheduled to speak at a conference in Grand Rapids, Michigan, on Radical Orthodoxy, where Homiletics was to meet up with him for this interview. But he called a few days before the conference to say that he had had back surgery and wouldn't be there. So we met with him in his home in Wheaton, where in the kitchen, and in a straight-back chair, he gladly and graciously discussed his observations about a church that is in the midst of change and the Younger Evangelicals who are leading the way.

Homiletics: To start, we should probably clarify the categories you develop for evangelicals in the 20th century and the early 21st century. You identify traditional, pragmatic and Younger Evangelicals. What defines these groups?

Webber: The underlying idea of these three groups is that evangelicalism seems to follow the curvature of culture and reflects culture. And if you look back over the last 50-60 years, culture has actually gone through three very distinct groupings: Boomers, Gen-Xers and now Millennials. It seems to me that as evangelicalism encounters each cultural shift that each cultural shift as they integrate with it gives a different shape and form, not so much to the message, but to the way in which the message itself is

Homiletics: So then, the Traditional Evangelicals function within a modern worldview that is rationalistic, and propositional.

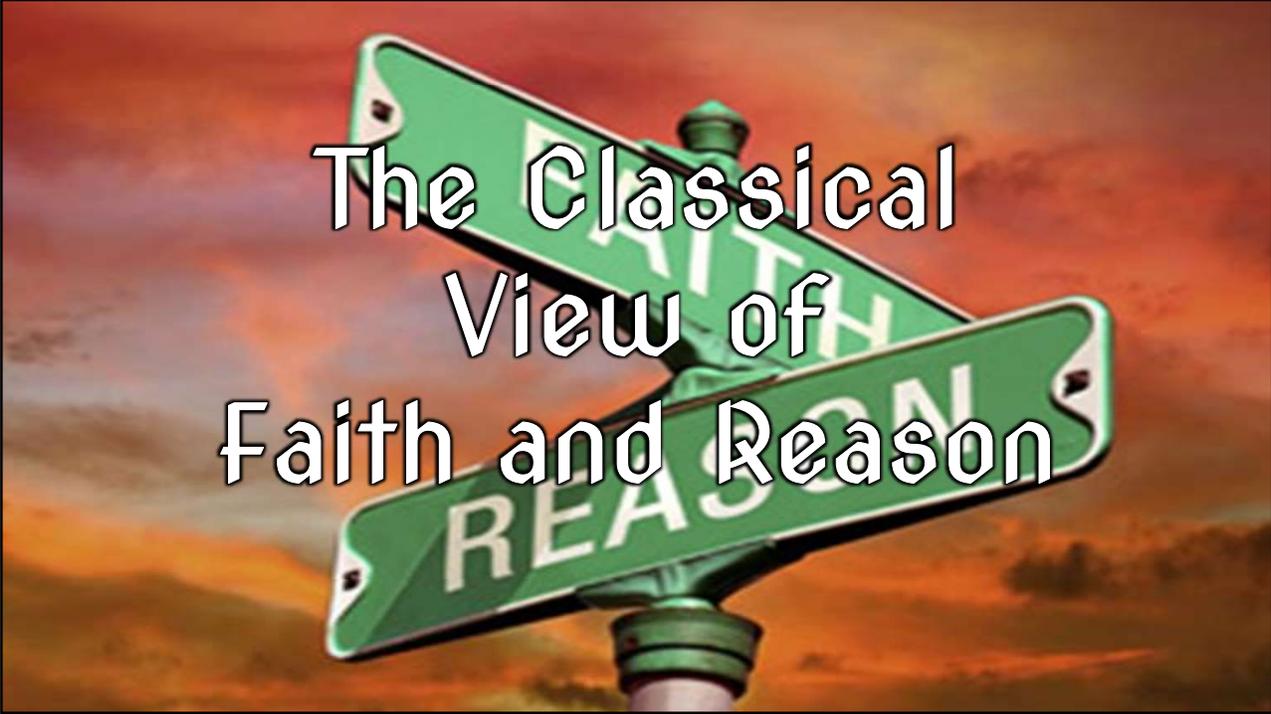

Webber: "That probably is the most distinguishing feature of the Traditionalists. They've been shaped by the Enlightenment. So they work with modern philosophy, a modern understanding of science, history, sociology. They're modernist, and so they interpret the Christian faith through these modern categories."

HOMILETICS

What Getting

Webber: "And what's very interesting about Traditional Evangelicals is that the categories through which they interpret the Christian faith are almost regarded as sacred, almost as sacred as the Christian faith itself. So if you say, 'Well, I don't believe in evidential apologetics,' there's something wrong with you."

Modular elliptic curves and Fermat's Last Theorem

Pierre de Fermat

Introduction

An elliptic curve over \mathbf{Q} is said to be modular if it has a finite covering by a modular curve of the form $X_0(N)$. Any such elliptic curve has the property that its Hasse-Weil zeta function has an analytic continuation and satisfies a functional equation of the standard type. If an elliptic curve over \mathbf{Q} with a given j -invariant is modular then it is easy to see that all elliptic curves with the same j -invariant are modular (in which case we say that the j -invariant is modular). A well-known conjecture which grew out of the work of Shimura and Taniyama in the 1950's and 1960's asserts that every elliptic curve over \mathbf{Q} is modular. However, it only became widely known through its publication in a paper of Weil in 1967 [We] (as an exercise for the interested reader!), in which, moreover, Weil gave conceptual evidence for the conjecture. Although it had been numerically verified in many cases, prior to the results described in this paper it had only been known that finitely many j -invariants were modular.

In 1985 Frey made the remarkable observation that this conjecture should imply Fermat's Last Theorem. The precise mechanism relating the two was formulated by Serre as the ϵ -conjecture and this was then proved by Ribet in the summer of 1986. Ribet's result only requires one to prove the conjecture for semistable elliptic curves in order to deduce Fermat's Last Theorem.

How Theology Needs Philosophy

by Richard G. Howe

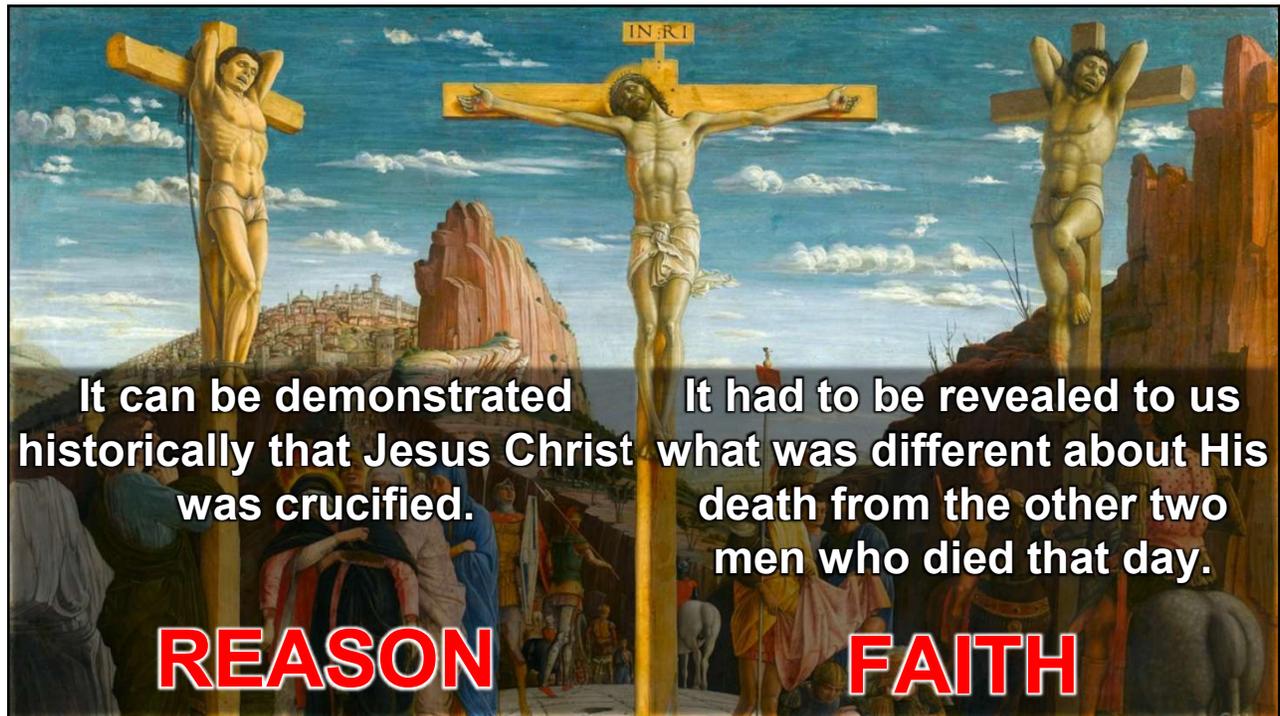

Prolegomena

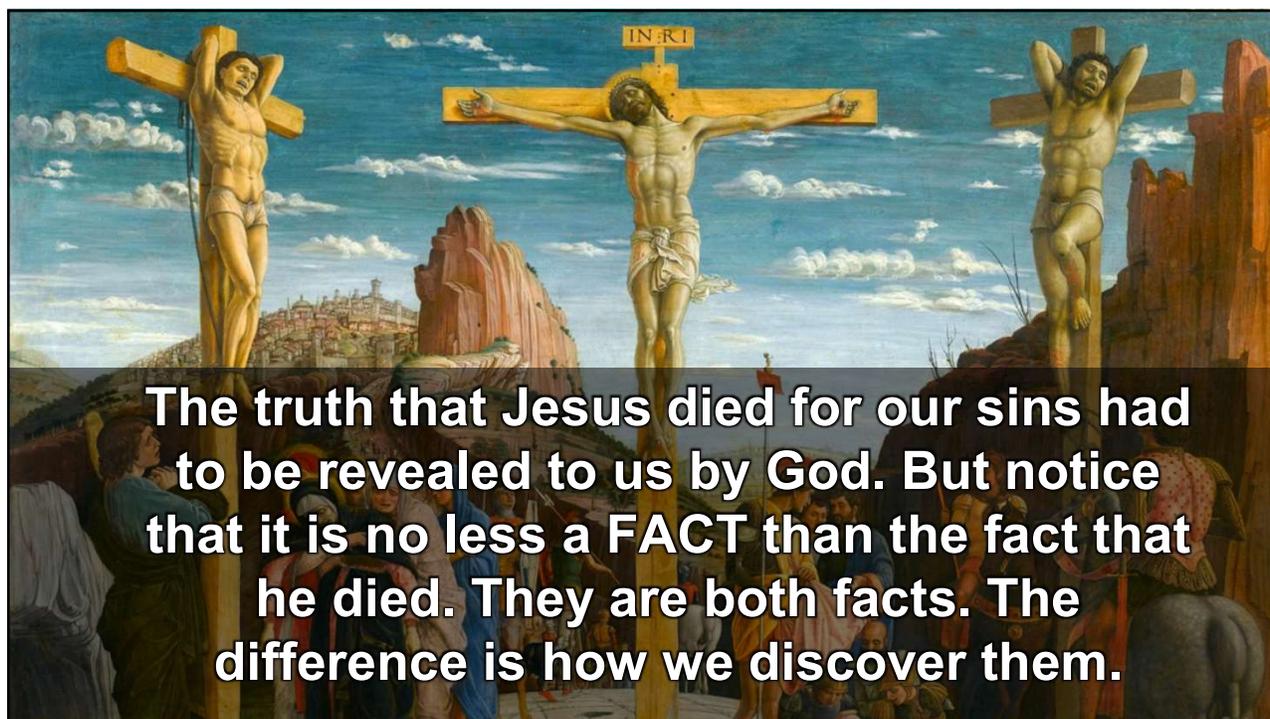

How Norman Geisler Helped Me in the Direction of My Life

I WAS LED to Christ in high school by Christian friends of mine. I grew spiritually about as much as one might expect a teenager to grow, becoming involved with my youth group at church and pursuing my interesting in drumming. After graduation, I headed to the community college to study music. I tell people that I learned enough music to annoy everyone around me. When it came time to consider senior college, Christian friends of mine told me that one could go to college and study the Bible. This sounded like a tremendous prospect to me, so off I went. I attended my denomination's flagship Christian college in my state. It was my first encounter with theological liberalism. My church had not prepared me to wrestle with issues like Higher Criticism. As a result, I intellectually lost my faith in college. Looking back on that experience, I saw a range of responses among my friends who were confronted with the same intellectual challenges. Some of my friends with whom I had prayed in high school mockingly "asked Jesus to come out of their hearts" and repudiated their Christianity altogether. Others embraced the skepticism of the critical methods and settled for a more mainstream liberal Christianity. Neither of these options seemed possible for me. I was not capable of completely abandoning my faith, as shipwrecked as it was. But neither was I comfortable with any sort of liberal theology. Others of my friends tried to amputate their intellect from their faith and reject any attempt to come to terms with the challenges and questions posed by critical thinking. That, too, was not appealing to me. I knew that I could not embrace a faith that would not stand up to reason. With this, I lived in dissonance for over a year.

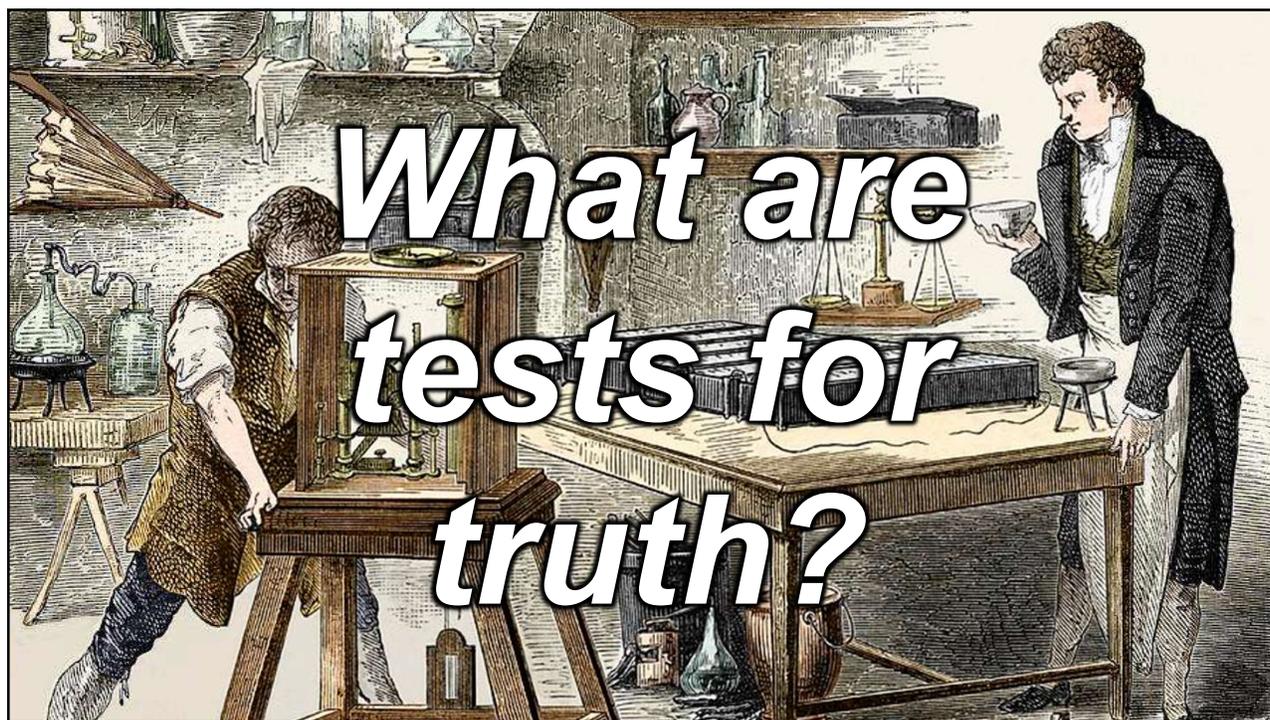

The short version of the story has me being intellectually rescued by a handful of apologists. Through their books and lectures, God brought into my life people like Josh McDowell, R. C. Sproul, and Norman Geisler. To this mix were added the insights and maturity of older brothers who had since come to the Lord. Being back on track, I began to consider the continued direction of my education. A short stint at a local

☞ Selection Effect ☞

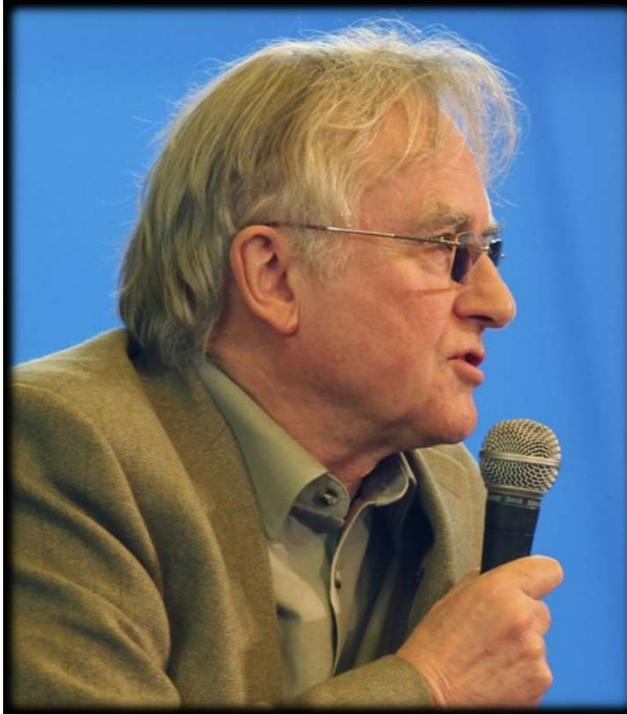

If you drag a net through the water of the lake in order to gather data about the relative sizes of the marine life, invariably any life that is either too small or too large will not be caught in the net.

☞ Selection Effect ☞

We see this fallacy often when physicalists completely miss the evidence for God because they are being scandalized by their own presuppositions.

"There is an answer to every such question [about miracles], whether or not we can discover it in practice, and it is a strictly scientific answer. The methods we should use to settle the matter, in the unlikely event that relevant evidence ever became available, would be purely and entirely scientific methods."

[Richard Dawkins, *The God Delusion*, 59.]

What methods for answering questions does Dawkins propose?

According to Dawkins, should scientific methods be used only for certain kinds of questions or for every kind of question?

Deut. 29:1-3

These are the words of the covenant which the LORD commanded Moses to make with the children of Israel in the land of Moab, besides the covenant which He made with them in Horeb. {2} Now Moses called all Israel and said to them: "You have seen all that the LORD did before your eyes in the land of Egypt, to Pharaoh and to all his servants and to all his land— {3} the great trials which your eyes have seen, the signs, and those great wonders.

Luke 1:1-4

"Inasmuch as many have taken in hand to set in order a narrative of those things which have been fulfilled among us, just as those who from the beginning were eyewitnesses and ministers of the word delivered them to us, it seemed good to me also, having had perfect understanding of all things from the very first, to write to you an orderly account, most excellent Theophilus, that you may know the certainty of those things in which you were instructed."

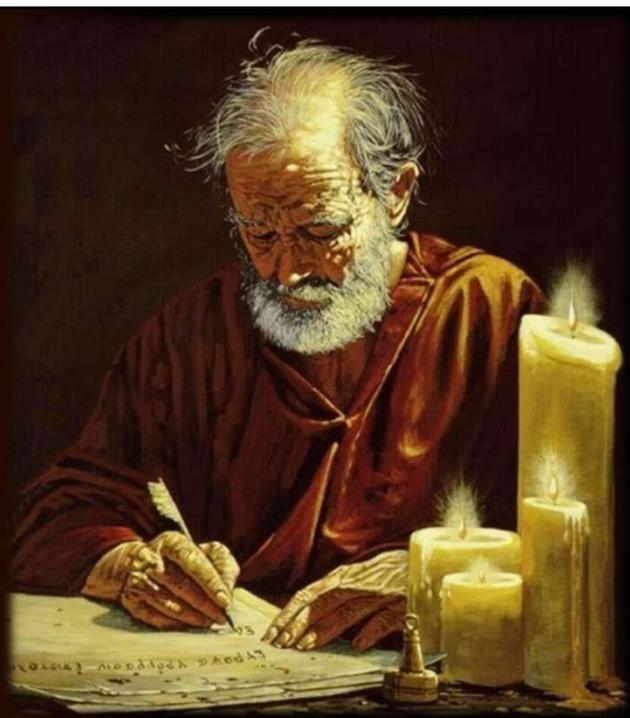

🌀 Acts 10:37-41 🌀

"And we are **witnesses** of all things which He did both in the land of the Jews and in Jerusalem, whom they killed by hanging on a tree. Him God raised up on the third day, and **showed Him openly**, not to all the people, but to **witnesses** chosen before by God, even to us who **ate and drank with Him** after He arose from the dead."

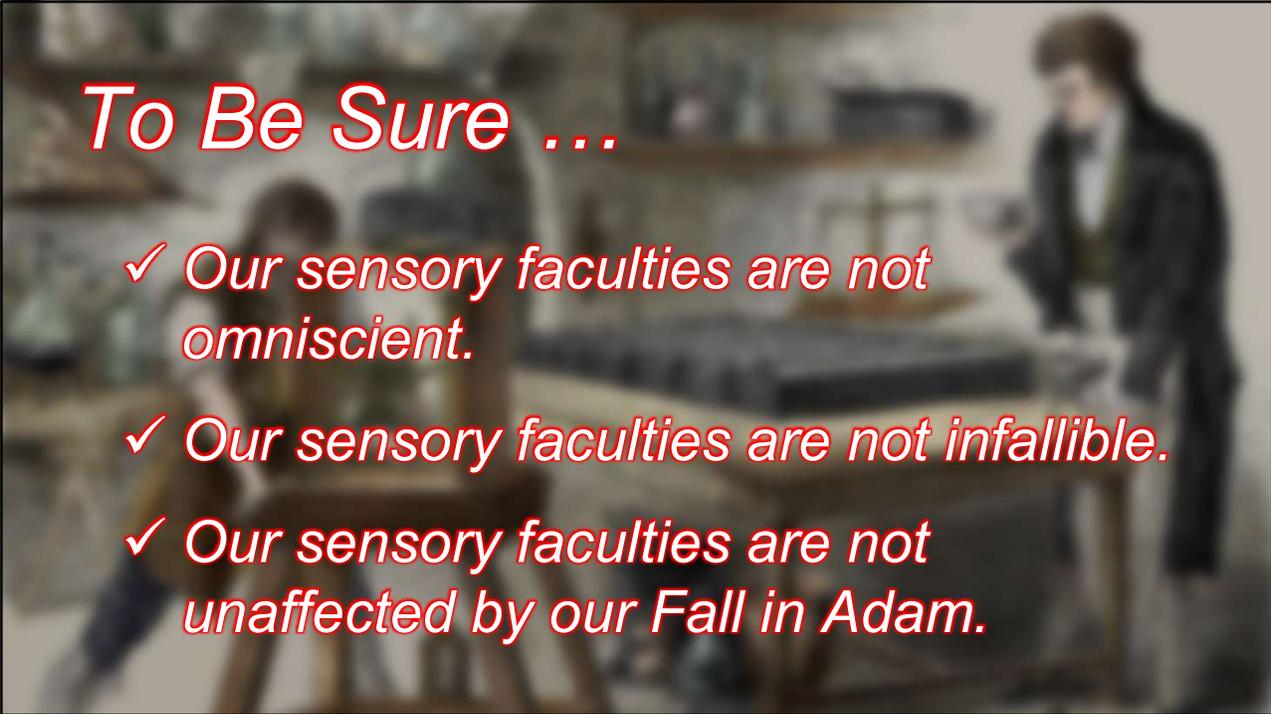

🌀 1 John 1:1-3 🌀

"That which was from the beginning, which we have **heard**, which we have **seen with our eyes**, which we have **looked upon**, and **our hands have handled**, concerning the Word of life—the life was manifested, and we have **seen**, and bear witness, and declare to you that eternal life which was with the Father and was manifested to us—that which we have **seen and heard** we declare to you, that you also may have fellowship with us; and truly our fellowship is with the Father and with His Son Jesus Christ."

Concerns about Empiricism?

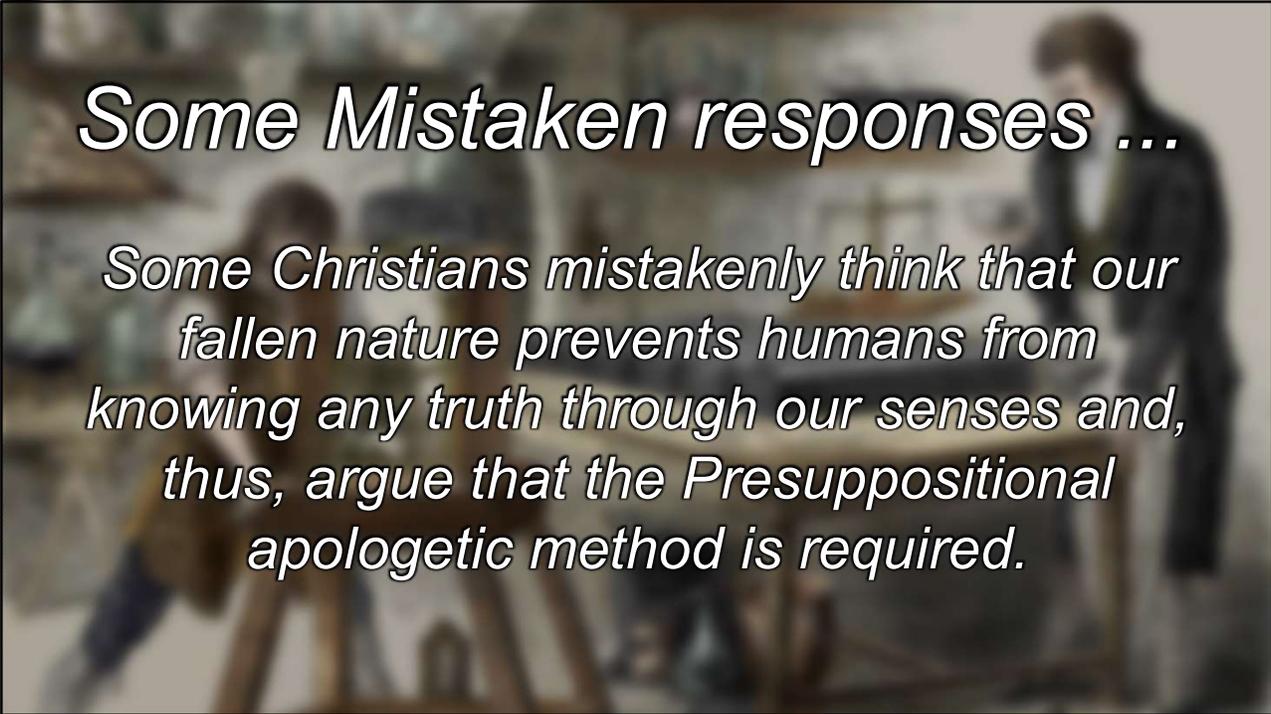

To Be Sure ...

- ✓ *Our sensory faculties are not omniscient.*
- ✓ *Our sensory faculties are not infallible.*
- ✓ *Our sensory faculties are not unaffected by our Fall in Adam.*

You hear concerns like ...

- *Empiricism can't give you logic.*
- *Empiricism can't give you metaphysics.*
- *Empiricism can't give you morality.*
- *Empiricism can't give you God.*
- *Empiricism can't justify induction.*
- *Empiricism shows that deduction is nothing more than a circular argument.*
- *Empiricism is just another way of saying that science is the only way to truth.*

Some Mistaken responses ...

Some Christians mistakenly think that our fallen nature prevents humans from knowing any truth through our senses and, thus, argue that the Presuppositional apologetic method is required.

Some Mistaken responses ...

Some Christians mistakenly think that what is needed is some sort of "balanced" apologetic in terms of which the methods of empiricism are supplemented by other means of "knowing," often drawing elements of Rationalism or Intuitionism.

Some Mistaken responses ...

Some Christians mistakenly think that Special Revelation (the Scriptures) are somehow given by God as a remedy to the failings of our senses.
